"...and you do"

# You were born to win

You were born to make a difference.

You deserve to cross the line and hear  
The fanfare play.

Life is beautiful, life is tough and sometimes  
Very wrong, but that's the song.

Beauty to be enjoyed and stored, for  
There are days in void.

The tough develops our strengths and  
After a while, sometimes makes sense.

The flower of inner peace grows for only  
Those who cultivate compassion.

Life is competitive; born unequal all were we.  
Some with gifts galore, others simply  
Have to chore.

We have to learn to score to win, our talents  
And tenacity tested.

Without courage, challenge is someone else's  
Dream, you have to play to win.

Winners focus on what they want.  
Losers focus on what they don't  
and live regret.

For what you focus on,  
Is what you get.

You should remember always, always;  
You were born to win.  
You were born to make a difference.

for the light comes from within.”

# Love, Learn, Grow

## and Build Your Business

**LOVE:** Mind-set. When we are happy, we notice the happy songs. When we are sad, we notice the sad things. When you make up your mind to want something personal, you notice almost everything which will help you achieve it. Love being part of something special.

Love, your greatest emotional energy. Love what you do and the people with whom you do it and you'll never work again.

**LEARN:** Unleash your 'growth mind-set' and tap into the 'Infinite You'; the 'Unlimited You'. We love to learn, we hate to be taught. The world does not owe you a living. You owe the world the best possible you. "Put the pigs of life to work." Every day, notice excellent people behaviour. University of Life. Success leaves clues. "Copy the good and not pig behaviour."

**GROW:** A mind-set to grow yourself will change your world. Do not see problems, seek solutions. Do not see what is, always look for what can be. The world is full of opportunities. They are all around you, just waiting for you, your vision, your clarity, your power to see clearly the vision of what you want for yourself and a better world. "Personkind, live not for yourself alone." All is one: Living is for giving. Business: Grow people, grow wealth and share wisely; the rest is detail.

**ACHIEVE:** Worthy challenges and the thrill of personal achievement. Which way? I am the equivalent of a single grain of sand on the beach of the world's vastness. The world has horrors galore, what difference can I make? Was it, Chade Meng Tan who said; if you can make something work for the individual and business, you can change the world? Maybe,

Photos: courtesy The Fred Hollows Foundation | [www.hollows.org](http://www.hollows.org)

just maybe, there is hope. Instead of just business, how about adding to the concept of "G&G": Goodness and Good business? Team power, we work together, contribute and help make a difference.

**IMPROVE:** To improve is the spirit of the artist, musician, writer who live to make each endeavour better than the last. It is the spirit of the 'true professional', doctor, pilot, surgeon and teacher; who work every day, to just keep getting better and better.

**TEACH:** To teach is an innate part of nature: Parent to offspring, how to survive. Teacher to student. Master to apprentice and intern. You help change the world when you teach. You give back to the source of your personal development. Therein lies hope.

**SHARE:** To share is the spirit of hope for a better world. The satisfaction of knowing your gift to another,

someone less fortunate than ourselves, does change their world and yours too. Living is giving, all is one. You can build a business with the energies of; Love, Learn, Grow, Achieve, Improve, Teach and Share wisely. Yes, we work not for ourselves alone. **Thank you for working with MoroccanOil and Olaplex. Together, we have again contributed to the amazing 'Fred**

**Hollows Foundation; working for the cause of preventable blindness. Now, because of You, 10,000 people can see nature, their families, their food, their hand in front of their face and a brighter future.** We believe in the concept of G&G, Goodness and Good business. Together, we help change lives and visions. If it is not fun or meaningful, why would we do it?
